1. Drill plastic out of the mounting holes on the seat, braces and stands using a 7/16" dia. drill bit.
2. Fasten the seat to the stands loosely using fixings provided.
3. Fasten the brace to the stands and seat loosely.
4. Make sure the bench is level and tighten all the bolts.
5. Place the bench in its final location and mark out base holes.
6. Move the bench to a safe location and drill holes.
7. Move bench back in place and anchor down using appropriate fixings for the ground material.

Periodic check of bolts tightness recommended
