

PREMIER POLYSTEEL

Community Bench Program

A program designed specifically for cities and organizations that wish to place benches throughout the community without tapping into the budget.

Perfect for Cities, Schools, Fairgrounds, Parks, Trails, and More!

Bench Program Benefits

Uniformity

The city's bench program facilitator will be able to choose the bench style, size, and color to create a look of uniformity throughout your space. Premier Polysteel benches are a beautiful and durable addition to all locations.

Easy Ordering

We will give you a flyer with all the necessary informations for you to print out for interested people and groups that will direct them to your website. The donor will click on a link from your web page that will take them to Premier Polysteel.com where they will be given the options you have chosen. Once there, they will enter the message they wish to have on the plaque. After the purchase is made, we will send them an order acknowledgement with the estimated delivery date.

Special Plaque

The sublimated ink plaque is specially rated for the outdoors and will withstand the weather without rusting. The 4" x 6" aluminum plate has a brass finish. Your personal message will have a clean and clear look due to this heat-pressed process.

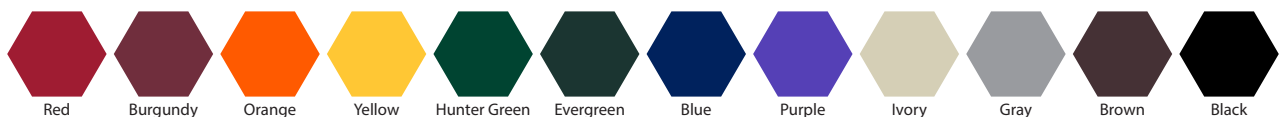

Delivery

We will be sure your benches arrive to your location in a timely manner. Installation is not included, but a complete assembly instruction is included.

20-Year Warranty!

Our benches are completely coated with UV-stable, mold-resistant plastisol (poly-vinyl), *including the legs!* They will never rust or need painting! In addition, there are no holes in the pipe to allow access to bees and other insects. We are certain you will have years of enjoyment with our durable benches. Because of this, we offer the best warranty in the industry!

PREMIER POLYSTEEL

The Best Commercial Outdoor Furniture Available. Period.
